

## ENGLISH FOR DOCTORS

### WHY CHOOSE ENGLISH FOR DOCTORS?

THE ENGLISH FOR DOCTORS COURSE WILL ENABLE YOU NOT ONLY TO DEVELOP YOUR SPEAKING AND LISTENING SKILLS WHEN COMMUNICATING WITH ENGLISH SPEAKING PATIENTS AND RELATIVES BUT WILL ALSO FOCUS ON YOUR READING SKILLS PARTICULARLY WITH REFERENCE TO MEDICAL MATERIAL SUCH AS JOURNAL ARTICLES AND PATIENT CASE NOTES.

### COURSE DESCRIPTION

- The course will give practice in writing referral letters and a range of medical reports.
- English for Doctors will not only assist you in communicating with patients and their relatives but medical staff and colleagues.
- The use of English in consultations and continue with examinations both general and specialist.
- The language used to discuss investigations, diagnoses and treatment with the patient and English speaking colleagues.
- Medical, surgery and physiotherapy English will also be covered.

## ENGLISH FOR DOCTORS

### TEACHING METHODOLOGY

- Aspects of the English language will be introduced and then practised with activities in a medical context.
- Then the language will be further practised in listening and writing activities involving medical documents.
- Further to this reading skills aimed at matching the skills required to understand a range of medical texts including hospital documents, medical textbooks, reference materials and articles will be covered.
- Case histories and different forms of treatment will be investigated and discussed.

### LISTENING TASKS

ALL LISTENING ACTIVITIES ARE HIGHLY INTERACTIVE ALLOWING FOR INPUT AND DISCUSSION REGARDING MEDICAL MATTERS.

LISTENING TASKS WILL INCLUDE:

- SIMULATED DOCTOR PATIENT INTERVIEWS
- DISCUSSION AMONG DOCTORS
- PHONE CALLS FROM A HOSPITAL LABORATORY
- PHYSIOTHERAPIST GIVING INSTRUCTIONS TO A PATIENT.
