

EUROPEAN HOMESTAY

TEACHERS homes are in England, Scotland, Wales, Ireland, France, Spain, Italy, Portugal, Cyprus, Switzerland and Greece

The student decides where they would like to do their Homestay. You can either choose a Mediterranean location or go to the British Isles. Whichever location you choose you are sure to make substantial improvements in the language you have chosen to study, as all our courses are total immersion. Not only will your fluency improve but you will also have an enjoyable holiday or an extremely pleasant break whatever course you choose to do.

Why study with European Homestay?

You want to improve your fluency..

but you are daunted by the prospect of group lessons that drag on without taking into account your individual needs.

Then why don't you consider a **Homestay Course**, where you can have individualised private one to one tuition with endless access to conversation in the language that you are learning

Your lessons will be tailored to your own specific needs by our team of highly qualified and experienced mother tongue teachers.

Furthermore the teachers' families and friends will be available to converse with you, when you're not having lessons..

How does Homestay work?

You will stay in the comfort of your teacher's home and have your lessons there. All meal times will be with your teacher and his or her family and friends, unless you decide to go out on your own.

What are the benefits?

You can work at your own pace without having to wait up for others. If on the other hand you are a little rusty you can have all the time you need to catch up. Homestay is great whether you need to study to pass an exam or to improve your fluency. We also design business and technical language courses as well as courses for specific purposes such as medical, engineering and legal. Young learners from age 10 are well looked after. Adults of any age are welcome.

Visiting a Nature reserve

Punting on the river Cam.

Free Time!!

Your lessons are usually in the morning, 3 hours or more, you decide.

Then, in the afternoon and evening you are free to go out on excursions with your teacher. If you are 16+ and you would like to venture out on your own, your teacher can advise you as to what attractions and activities might be fun.
