THE SOCIAL PROGRAMME - ACTIVITIES & EXCURSIONS

WHAT DOES THE SOCIAL PROGRAMME CONSIST OF?

The social programme is designed with your needs in mind. Consequently, whatever your interests, your teacher will take this into account when organising your plan of outings and excursions.

There are a wide range of excursions and activities to choose from including: golf, ice-skating, different sports, swimming, hiking or walking, visiting museums and exhibitions, ten-pin bowling, cinema, theatre, restaurants and cultural attractions depending on the location you have chosen.

Taking the age and interests of the student into account is fundamental in selecting all excursions and trips. They are all planned with the teacher at the start of the course. Your teacher will accompany you on two half day or evening excursions per week and one day trip at the weekend (courses of 2 weeks +).

When you book online you can tell us which activities you would prefer and we can then advise on cost and availability. All entrance fees to museums and travel by public transport etc. must be paid by the student, except on Young Learner's courses which are fully inclusive of all costs for activities and excursions.
