

# WHY ARE EUROPEAN HOMESTAY COURSES TOTAL IMMERSION?

## WHY ARE WE ABLE TO OFFER TOTAL IMMERSION ON ALL OUR LANGUAGE COURSES?

- European Homestay students live in their teachers' homes and develop a genuine rapport with the teacher, family and friends. This is vital in facilitating genuine conversation outside lessons; invaluable in improving fluency in the language.
- The location of the homestay makes no difference to the conversational opportunities that the student will have as 99% of the conversation is with the teacher, family and friends. You will have found through experience that it is extremely difficult to have an actual conversation with complete strangers such as waiters or bus drivers in any country.
- English being an international language is spoken everywhere so if the student wishes to speak English outside the home with strangers there is that possibility as well even outside the UK.

## EUROPEAN HOMESTAY COURSES

European Homestay runs Intensive Homestay courses in Europe, mainly in the UK, Ireland, Italy, France, Spain, Portugal, Switzerland, Cyprus and Greece.

Our objective is to give you **Total Immersion** in the language and culture you have chosen to study wherever you have selected to homestay. Most students arrive with at least a basic knowledge of the language they wish to learn. Whatever their level European Homestay Teachers give them their undivided attention and students make considerable progress. We do also have students at beginner level.

You are welcomed into your teacher's home where you will experience life as part of the family together with an individual programme of intensive tuition. On this type of course you make rapid progress due to the intensity and personalised aspect of the courses.

Furthermore the social activities and outings will be even more enjoyable as you will be able to share your experiences with the person of your choice.
